

EditEmployeeInfoDBC
::collectEmail

```
graph LR; A["EditEmployeeInfoDBC::collectEmail"] --> B["Client::execute"]
```

A diagram showing a call from a function to a client. On the left, a gray rectangular box contains the text "EditEmployeeInfoDBC" on the top line and "::collectEmail" on the bottom line. A blue arrow points from the right side of this box to the left side of a white rectangular box on the right. The white box contains the text "Client::execute".

Client::execute
