

CallbackBase

```
classDiagram
    class CallbackBase {
    }
    class FileSystemCallback["FileSystem::Callback_File_receiveVersion_Base"] {
    }
    CallbackBase <|-- FileSystemCallback
```

The diagram illustrates a class hierarchy. At the top is the 'CallbackBase' class, represented by a white rectangle with a black border and three horizontal internal dividers. Below it is the 'FileSystem::Callback\_File\_receiveVersion\_Base' class, represented by a gray rectangle with a black border and three horizontal internal dividers. A blue arrow with an open triangular head points from the top of the gray box to the bottom of the white box, indicating that the gray class inherits from the white class.
